ABOUT US

1911

Gabeler Gauss established a hardware faucet-based design and production enterprise in Stuttgart, which is famous for its fine machinery, and named it after COSO

加贝勒·高斯在这座以精细机械而闻名的斯图加特·建立了以五金龙头设计和生产为主的企业·并以 COSO 命名

1912

The first faucet in COSO with humanized design launched the market, and it is the innovation of the whole German household faucet design

德国 COSO 第一款带有人性化设计的龙头推出市场·创新了整个德国家用龙头设计

1955

COSO takes the lead in developing Nonmetallic Ceramic Cartridge in the world, which has a far-reaching impact on the development of faucet industry

德国 COSO 全球率先研发出非金属陶瓷阀芯·对龙头行业发展产生深远影响

1993

COSO - Germany Headquarter have been moved to Windeck, Köln

COSO (德国总部) 顺利搬迁到科隆 Windeck

1999

COSO has established an International product research and development center in Foshan, China, and authorized the brand to enter the Chinese market in the same year

德国 COSO 在中国佛山建立国际级生产制造基地·同年授权品牌进入中国市场。

2000

COSO is the first launch rain shower series in China, leading the reform and development of China's bathroom market

德国 COSO (中国) 首家研发推出淋浴大花洒系列·引领中国卫浴市场的变革与发展

2008

COSO love China specially and developed the "Torch Series" to celebrate the Beijing Olympic Games, and at the same year, COSO was listed on CCTV (China Central Television) brand

COSO 倾情中国·特研发出“火炬系列”迎接北京奥运会·同年 COSO 荣登 CCTV 上榜品牌

2018

COSO officially announced the original import products to the China market

德国 COSO 正式宣布原装进口产品上市

2019

The second phase of the industrial park in COSO Asia Pacific was officially opened

德国 COSO 亚太区第二期工业园正式启用

2020-2021

COSO won the 20th and 21th Golden Horse Award "China's Best Real Estate and Hotel Sanitary ware Supplier"

德国 COSO 荣登第二十届和第二十一届金马奖“中国最佳地产及酒店卫浴洁具供应商”

2022

COSO obtains the "Certification of Green building materials product" "Top 10 Sanitaryware brand" and other honours committed to bringing green sanitary ware products to thousands of households

德国 COSO 荣获“绿色建材产品认证证书”、“卫浴十大品牌”等殊荣·致力将绿色卫浴产品带到千家万户

2023

COSO won the 23rd Golden Horse Award "Social Responsibility Award"

德国 COSO 荣获第二十三届金马奖“社会责任奖”

HEADQUARTER IN GERMANY

德国总部

COSO Technologie Deutschland GmbH was founded in Stuttgart, Germany in 1911. In 1911, Art Nouveau style (i.e. modern style) emerged in Europe. With the pursuit of perfect integration of technology and art, the founder of COSO, Gabeler Gauss, abandons the traditional European cumbersome product appearance and shape, and creates a simple style of bathroom products. Under the simple shape of the product, the most rigorous technology and healthy and environmentally friendly materials have laid the foundation for COSO-style healthy bathroom. With the strict manufacturing philosophy of the Germany, he created an enterprise focusing on the design and production of hardware faucets in Stuttgart, and named it as 'COSO'. In 1915, on the 60th anniversary of the death of the famous German mathematician - Johann Karl Friedrich Gauß, Gabeler Gauss changed the brand name to 'COSO'. He hoped that Gaussian bathroom products would continue the essence of Gaussian thoughts to commemorate this world genius in the mathematics world, and benefit logically, rationally beautiful German-style healthy sanitary wares for thousands of families.

COSO, as a 112-year-old Deutschland company, with its unique industrial design style and design concept combined with ergonomics, high-quality raw materials and refined manufacturing processes, it has created products with a unique "COSO" style. , has won the support and recognition of consumers on the market.

In the past 112 years, COSO has integrated modern German health and rigorous design concepts - Concentration, Originality, Strict, Outstanding, and has developed into a global leader bathroom brand, and it is also the top health bathroom brand in the industry.

德国 COSO 卫浴创始于 1911 年德国斯图加特。1911 年，欧洲兴起了新艺术运动风格(即现代风格)。COSO 卫浴创始人 Gabeler Gauss 凭着对技术与艺术完美融合的追求，摒弃了传统欧式繁琐产品外观造型，开创了卫浴简约风格，在产品致简的造型下，以最严谨的技术以及健康环保的材质，奠定了 COSO 德式健康卫浴的基础。怀揣着德国人严谨的制造理念，他在斯图加特创建了一家以五金龙头设计和生产为主的企业，并以其名字 Guass 命名。1915 年，著名德国数学家 COSO 逝世 60 周年之际，COSO 创始人 Gabeler Gauss 把品牌名称改为 COSO。他希望德国 COSO 卫浴延续 COSO 的思想精髓，以纪念这位数学界的世界天才，以逻辑性、富理性美的德式健康卫浴造福千家万户。

一百一十二年来，作为德国的百年企业，凭借着独有的工业设计风格和结合人体工程学的设计理念，高品质的原材料，精益求精的制造工艺，创造出具有“COSO”风格的产品，在市面上赢得了广大消费者的支持和认可。

在过去的 112 年时间里，COSO 融合了现代德国健康、严谨的设计理念——Concentration 专注，Originality 新颖，Strictness 严谨，Outstanding 先行，发展成为全球一线的卫浴品牌，更是卫浴领域里的顶级健康卫浴专家。

CHINA BRANCH

亚太区总部

In 1999, Germany COSO established an international product r&d center in Foshan, China, authorized the brand to enter the Chinese market in the same year. In 2000, the company took the lead in r&d and launched a rain shower, creating new product lines for the hardware industry, and at the same time allowing consumers to experience extraordinary bathroom space, which has a profound impact on the development of the bathroom industry. In 2008, COSO developed a special "Torch Series" to celebrate the Beijing Olympic Games, in the same year, COSO was listed on the CCTV brand, and in 2010 Shanghai World Expo, honor to enter the GMC Pavilion of Shanghai World Expo in China Shanghai World Expo GMC pavilion. In 2012, COSO was awarded the key support unit of Chinese famous brand. In 2020, COSO was awarded as "The Best Supplier of Sanitary Ware for Real Estate and Hotel In China" at the 20th Golden Horse Awards. These are the great achievements of COSO.

At present, COSO has a series of products such as faucets, showers, ceramic, bathroom cabinets, shower room, kitchen sink, hardware accessories. The perfect product system not only witnessed the strength of COSO, but also reflected the strong productivity and creativity. At the same time, COSO was the first bathroom industry to introduce 4S purpose services, free pre-sales design and consultation, and provide personalized bathroom solutions, and provide professional sales technicians to guide debugging and installation services, and also provide 24 hours after-sales service and perfect product warranty and maintenance services. All of these reflects COSO's strong strength as an international brand and unparalleled brand value.

COSO products can be seen in lots of large office buildings, five-star hotels and high-end residential areas around the world. Excellent products and professional services have made COSO products won the favour of major architects, designers and engineering.

1999年·德国 COSO 在中国佛山建立国际级产品研发中心·同年授权品牌进入中国市场。2000年率先研发推出淋浴花洒·为五金行业创造新的产品线·同时让消费者感受到不一般的卫浴空间体验·对卫浴行业发展产生深远影响。于2008年·COSO 特研发出“火炬系列”迎接北京奥运会·同年 COSO 荣登 CCTV 上榜品牌·并在2010年上海世博会·荣誉进驻中国上海世界博览馆 GMC 馆。在2012年期间 COSO 荣获中国名牌重点支持单位。2020年 COSO 获评第二十届金马奖“中国最佳地产及酒店卫浴洁具供应商”。这些充分体现 COSO 的辉煌成就。

目前·德国 COSO 拥有水龙头、花洒、陶瓷、浴室柜、淋浴房水槽五金挂件等系列产品。完善的产品体系不仅见证了德国 COSO 的品牌实力·也体现了强大的生产力和创造力。同时·COSO 在同行业内率先推出 4S 宗旨服务·售前免费设计、咨询·提供个性化工程解决方案；提供售中专业技师指导调试与安装服务；售后电话回访 24 小时服务以及完善的产品保修与维护服务。这一切·都体现了 COSO 作为国际品牌的雄厚实力与无可比拟的品牌价值。

在世界各地的大型写字楼、五星级酒店以及高档住宅区均能见到德国 COSO 产品的身影，卓越的产品与专业的服务·使德国 COSO 的产品得到了各大建筑师、设计师、工程商的青睐。

Johannes Canetti

DESIGNERS 设计是 COSO 的核心力量

Deconstruct functional design aesthetics, extend artistic tension and create perfect living art. The COSO has many famous designers, they as the soul of the product design and development, design for the COSO injection features of the perfect combination of humanity and art innovation design idea, for the global customers with green, health, comfortable life quality as the goal, the COSO to insist on his own point of view, innovation in the product into the sweet thoughtful humanized design, constantly seeking a better solution, let every user can find the most suitable product in the COSO.

解构功能设计美学·延展艺术张力·缔造完美生活艺术。
德国 COSO 拥有很多著名设计师·他们作为产品设计研发的灵魂人物·为德国 COSO 设计注入功能人性化与艺术完美结合的创新设计理念·为全球用户提供绿色、健康、舒适的优质生活为目标·德国 COSO 对创新始终坚持自己的观点·在产品中融入贴心周到的人性化设计·不断寻求更好的解决方案·让每一位用户在 德国 COSO 都能找到最适合的产品。

HESSE

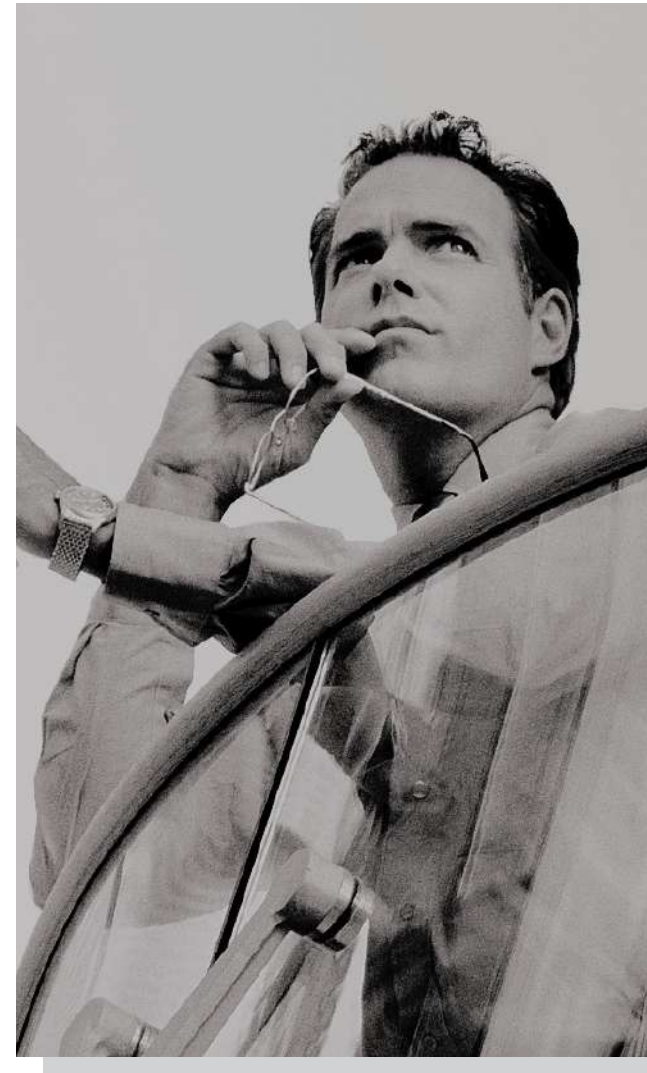

Designer

Series Of Dream Back To Rome

He studied industrial design, philosophy and product design in Berlin, Germany, London, England and Paris, France, and obtained master's and doctor's degrees. With his unique design style and innovative works, he has won numerous international design competitions and awards, and is honored as the most outstanding designer in the world.

梦回罗马系列

曾在德国柏林、英国伦敦和法国巴黎攻读工业设计、哲学和产品设计并取得硕士和博士学位，以独特的设计风格和不断创新的作品赢得无数国际设计竞赛奖，被誉为世界最卓越的设计师

CHRISTIAN WERNER

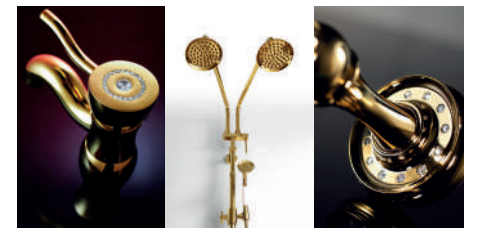

Designer

Series Of Diamond

He graduated from the world-renowned Dusseldorf Academy of Arts with a master's degree in engineering. After graduation, he has been a senior designer of many famous brands in the world. In 1992, he set up his own design studio in Frankfurt, and many of his works have won Hanover IF Design Award and Ecological Design Award.

钻石世家系列

毕业于世界著名的德国杜塞尔多夫艺术学院，获得工科硕士学位。毕业后他历任世界众多知名品牌公司高级设计师。1992年在法兰克福建立个人设计工作室，有多项作品获得汉诺维 IF 设计大奖及生态设计大奖

HARDWARE PRODUCT

Exquisite craftsmanship, originality work, present the exquisite details perfectly

HARDWARE TECHNOLOGY

五金技术

ENVIRONMENT-FRIENDLY COPPER MATERIAL 环保铜材

COSO products are using international standard H59-1 copper CNC machining, low lead, environmental protection.

德国 COSO 产品均采用国际标准 H59-1 铜数控加工而成·低铅、环保

CORE TECHNOLOGY 芯技术

COSO products are all made of solid copper rod, processed by CNC programming machine, the product is adopting whole shaped technology, high precision, smooth surface, no sand hole, no impurities in the whole body, stable quality, long service life, thoroughly remove the lead component after acid-base treatment.

德国 COSO 产品采用实心铜棒·通过 CNC 数控编程机加工而成·产品一体成型·精密度高·表面平整光洁·无沙孔·通体无杂质·质量稳定·使用寿命长·经酸碱处理彻底去除铅成分

ORIGINALLY IMPORTED TOP-GRADE VALVE CORE

原装进口阀芯

The top-grade valve core adopted by COSO is more wear-resistant, high-temperature resistant, corrosion-resistant, and has good sealing performance than ordinary spools. It is guaranteed to be used for 1 million times without damage and has a long service life.

COSO 品牌采用的顶级阀芯比普通阀芯更耐磨、耐高温、耐腐蚀、密封性好·保证使用 100 万次无损·使用寿命长

FIVE-LAYER PLATING

五层电镀

American Aerospace Science and Technology electroplating technology makes the electroplating layer more adhere to and protect the product body, and has superior performance in corrosion resistance and scratch resistance.

美国航天科技电镀技术·让电镀层更加粘附和保护产品本体·在抗腐蚀·抗刮伤方面具超强性能

HARDWARE TECHNOLOGY 五金技术

THREE-GEAR 三档节水技术

First Gear, Economic Gear, normal use can save water up to 50%
Second Gear, the best combination of water-saving and comfort
Third Gear, the luxurious gear achieves your feeling of ideal and carefree

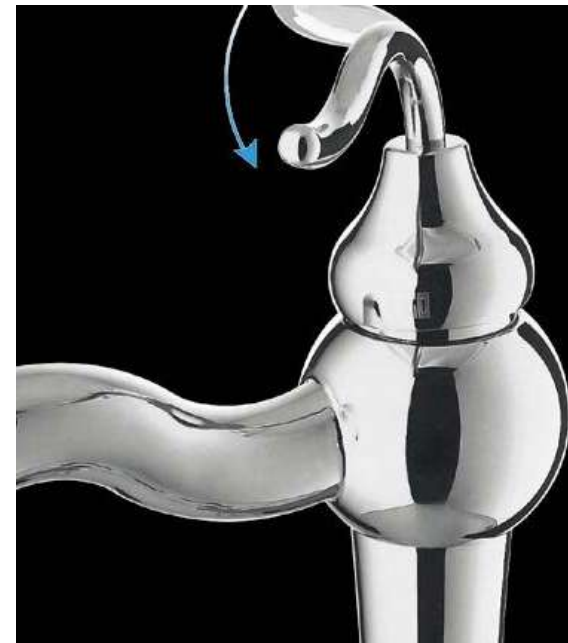

第一档·经济档·正常使用最多可节省用水 50%
第二档·节水和舒适度最佳组合
第三档·豪华档达到你最理想畅快感觉

360° ROTATION 360°旋转不受限

Water outlet direction can be adjusted 360 ° to meet different water needs.

可 360°调节出水方向·满足不同用水需求

TECHNOLOGY OF AUTOMATIC RETURN TO COLD 自动回冷技术

Special automatic cooling spool can automatically return to the cold water outlet mode after closing the water outlet switch to avoid accidental scalding by hot water. To protect the safety of water for old people and children is the masterpiece of COSO humanized design.

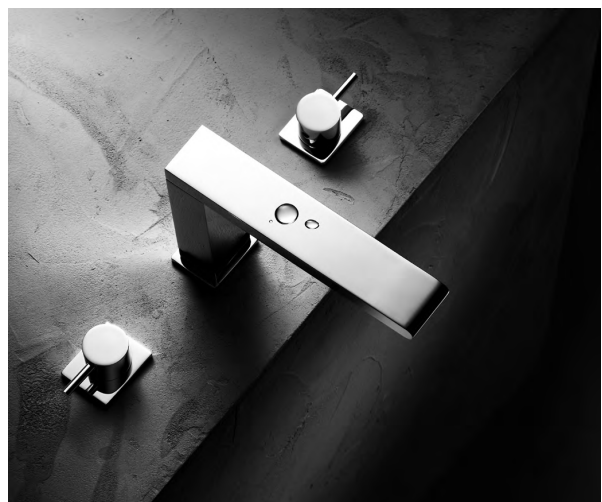

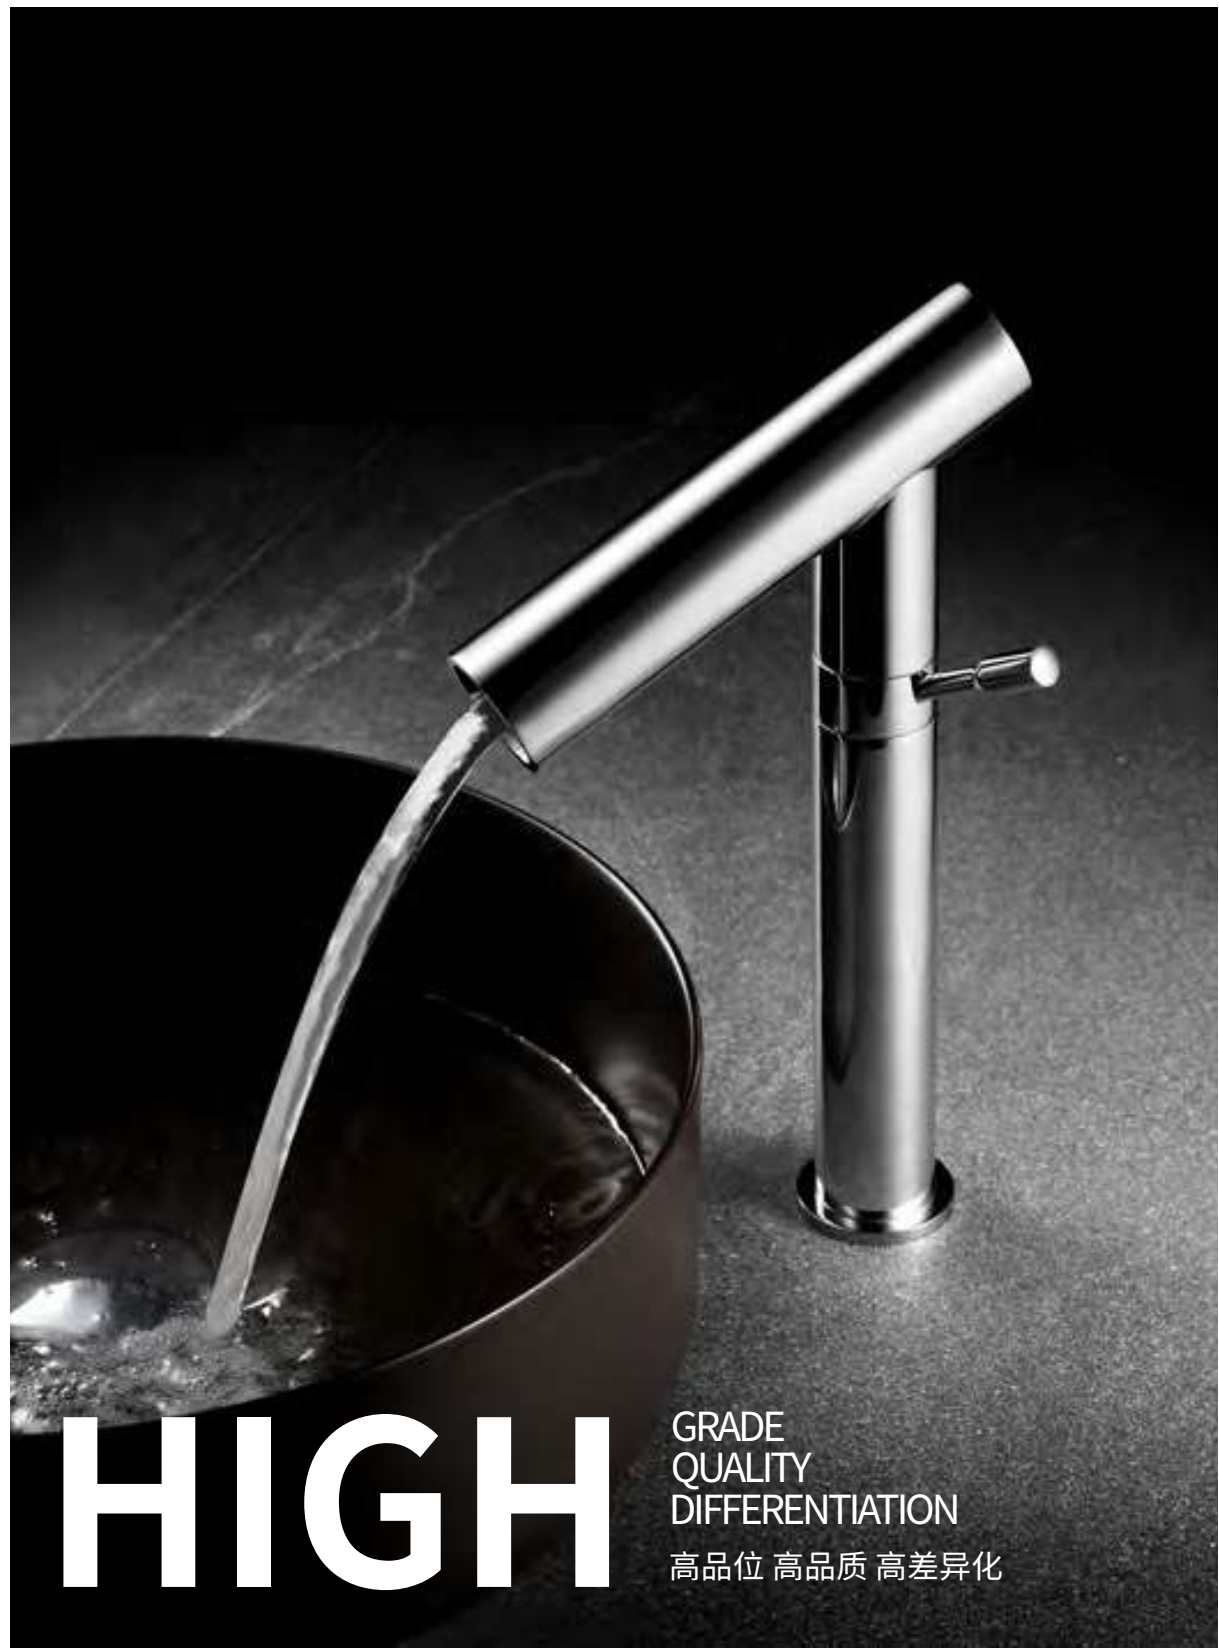

特设自动回冷阀芯·在关闭出水开关后能自动回位至冷水出水模式·避免遭受热水的意外烫伤·保护老人小孩用水安全·是德国 COSO 人性化设计的杰作

TOUCH CONTROL TECHNOLOGY 触控技术

Using the principle of water pressure to control the switch, overturn the traditional faucet opening and closing mode, keep public places away from cross-infection, and lead the revolution of the fourth generation faucet. Press 0.1 SEC to give water immediately
0~15 seconds to adjust the time delay of water closing
Zero Bacterial Infection

利用水压原理控制开关·颠覆传统龙头开合模式·让公共场所远离交叉感染·引领第四代水龙头变革·
0.1 秒即按即出水
0~15 秒调节延时关水
0 细菌感染

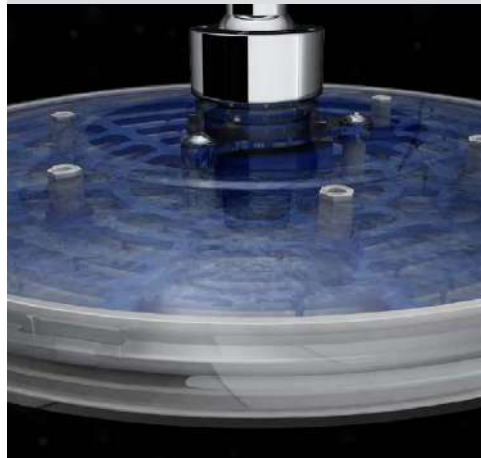

HARDWARE TECHNOLOGY

五金技术

EASY CLEANING TOP SPRAY (LARGE SHOWER HEAD)DESIGN 易洁顶喷 (大花洒) 设计

Each outlet is inlaid with silica gel granules in a large shower, which is soft and elastic. It can remove impurities and scale in the outlet with a simple sweep of the hand to prevent blockage.

大花洒每个出水孔镶嵌硅胶胶粒·柔软有弹性·只需轻轻用手一扫·便能清除出水孔的杂质和水垢·防止堵塞

AIR INJECTION SELF-CLEANING TECHNOLOGY 空气注入自洁技术

With the mixture of air and water, the water drops become full and smooth like natural rain, bringing you a shower experience like rain; Top spray built-in automatic descaling design, water outlet never blocked, more comfortable to use.

空气和水的混合技术·水滴变得饱满柔顺如天然雨落·带给你雨淋般的淋浴体验;顶喷内置自动除垢设计·出水孔永不堵塞·使用更舒心

LARGE SHOWER HEAD WITH LARGE GAUGE ANTI-WATER CHANNELING DESIGN 淋浴大花洒大曲脚防窜水设计

1. The distance between national standard outlet is 15CM, and the adjustable range of bend foot is 8-20cm;
2. It is equivalent to a diagonal valve, which can be easily removed from the main sprinkler valve;
3. check valve design, prevent channeling water, to prevent the temperature of hot and cold.

- 1、国标出水口间距为 15CM·大曲脚可调节范围 8-20CM;
- 2、相当于一对角阀·可方便拆卸花洒主阀;
- 3、止回阀设计·防止窜水·防止水温忽冷忽热

SHOWER HEAD LOWER OUTLET 180 DEGREE ROTATION DESIGN 淋浴花洒下出水 180° 旋转设计

The outlet water can move 180°, ensuring that it can rotate parallel to the wall 180° when not in use, saving space and facilitating the owner to move around.

下出水可 180° 活动·确保在不使用时可 180° 旋转平行于墙壁 (收起来) 节省空间·方便主人走动

AUTOMATIC RETURN OF WATER DISTRIBUTOR 分水器自动回位

Humanized design of automatic return water separator perfectly realizes three water outlet modes (lower shower outlet, hand held shower outlet, top shower outlet), and will automatically return to the lower shower outlet mode after closing the shower outlet switch.

人性化设计自动回位分水器·完美实现三种出水模式 (下出水、手持花洒出水、顶喷出水)·并在关闭出水开关后·会自动恢复到下出水出水模式

AHAND-HELD ANTI-WINDING SHOWER HEAD HOSE 手持花洒防缠绕软管

Soft and ductile hose, apply humanized 360° anti-winding design in the connection of hose and shower, avoid the inconvenience caused by the fixed connection of hose and shower caused by traditional shower in the process of use.

软管柔软有韧性·在软管和花洒连接处应用人性化 360° 防缠绕设计·避免在使用过程中像传统花洒由于软管和花洒固定连接而造成不能自由使用的不便

HARDWARE TECHNOLOGY 五金技术

Thermostatic shower
恒温花洒

**HIGH SENSITIVITY
ATTEMPERATION IN AN INSTANT**
冷触技术

The safety appearance wrapped in cold water can avoid the risk of external burns for both children and the elderly. It is like being in an intelligent protective shell to make all-round protection.

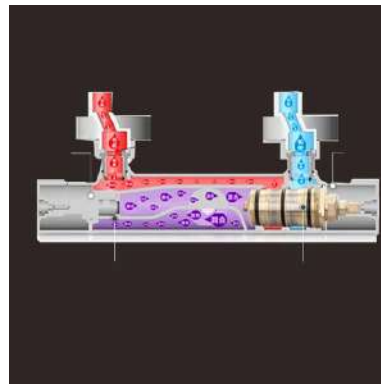

用冷水包裹的安全外表·无论是儿童·老人都避免了外表烫伤风险·犹如置身于智能保护壳中·实现全方位防护

**SHOWER HEAD LOWER OUTLET
180 DEGREE ROTATION DESIGN**
38°C智能恒温技术

The thermostatic faucet can automatically balance the inflow of cold water and hot water in a short time through the thermostatic control valve core to support the temperature of the outlet water, say goodbye to the hot and cold shower, the operation is intuitive and convenient.

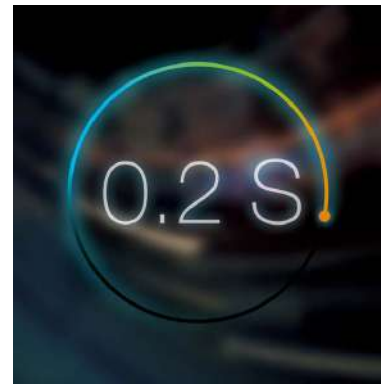

恒温龙头可通过恒温调节阀芯·在很短的时间内自动平衡冷水和热水的进水量以保持出水温度的稳定·告别淋浴时的忽冷忽热·操作使用直观方便

**FLASH ELECTROPLATING
TECHNOLOGY**
不用电的恒温阀芯

SMA thermostatic valve core reaction speed is very high when hot or cold water pressure suddenly changes, or hot water temperature change suddenly, thermostatic valve core in a very short period can be the automatic balance of cold water and hot water pressure, to support the stability of the water temperature, without the need for manual adjustment without power control.

SMA 恒温阀芯反应速度极快·当热水或冷水的水压突然发生变化时·或者热水的温度突然发生变化的时候·恒温调节阀芯即可在很短的时间内自动平衡冷水和热水的水压·以保持出水温度的稳定·完全不需要进行人工调节也不用电力控制

**HIGH SENSITIVITY
ATTEMPERATION IN AN INSTANT**
灵敏度高 - 瞬时调温

0.2-second instantaneous temperature control, instant water temperature regulation, eliminate the hot and cold, constant temperature paraffin valve core, to ensure stable temperature.

0.2秒瞬时控温·瞬间水温调节·杜绝忽冷忽热·恒温石蜡阀芯·保证稳定温度

**AUTOMATIC CURRENT LIMITING
TECHNOLOGY**
自动限流技术

In the absence of cold water, automatically stop the hot water, to prevent scald, non-check valve constant temperature faucet, to prevent impurities blocking, causing channelling water. Patented gear spool design, synchronously closes hot water inlet in the closed state.

在没有冷水进水时·自动停止热水出水·防止烫伤·无止回阀恒温龙头·防止杂质堵塞·造成窜水·档位阀芯设计专利·关闭状态时·同步封闭热水进水

**THE GUARDIAN OF
THERMOSTATIC SHOWER**
恒温花洒贴心“守护神”

After the impurity is removed by the prefilter road, the water flows to other water supply appliances, which can effectively extend the life of the whole house water supply equipment, reduce the maintenance cost, and ensure the safety of drinking water.

前置过滤器路滤除杂质后·水流向其他供水家电·能有效延长全屋用水设备寿命·减少维修成本·保障饮用水安全

BATHROOM CABINET

Inheriting the simple, fashion, classic and exquisite, contains with the unique fashion design

BATHROOM CABINET TECHNOLOGY

浴室柜技术

BOARD 板材

Yacht board, designated by Italy's Perini Navi Group, Europe's top yacht company; It is waterproof, moisture-proof, mildew proof, deformation proof, crack-proof, mothproof, formaldehyde-free, recyclable; Has a good all-weather, especially in the humid water environment still maintain excellent performance, has unique hydrophilic characteristics

游艇板·欧洲顶级游艇公司意大利 Perini Navi 集团指定板材；具有“6防1零1可”（防水、防潮、防霉、防变形、防龟裂、防虫蛀、零甲醛、可循环）特性；具有良好的全天候性，尤其是在潮湿的水环境中依然保持卓越性能，具有独特的亲水特性

3D NERI INTEGRATED MOLDING 3D 奈丽一体成型

3D nelly integrated moulding technology is adopted to break through the traditional manufacturing technology to make the product more beautiful in shape and more stable in performance. 3D Nellie integrated moulding technology can realize the different styles of cabinet door and cabinet face and can realize the free customization of users. 3D Nellie integrated moulding technology is to create three-dimensional plates through 3D technology, without any chemical bonding, which is environmentally friendly and healthy.

采用 3D 奈丽一体成型技术处理，突破传统的制造技术，使产品造型更加优美，性能更稳定；3D 奈丽一体成型技术可实现柜门柜面的不同样式，更可实现用户的自由定制；3D 奈丽一体成型技术是通过 3D 技术对板材进行立体打造，无需进行任何化学粘合，环保健康

STOVING VARNISH 烤漆

COSO exclusive use of international leading anion 5 layers of piano paint (also known as diamond paint); Stronger hardness, more than 2H, better brightness texture, excellent yellow resistance, high cost; COSO diamond paint process is complex, from surface spray paint to high-temperature baking paint through 8 processes, the final formation of the firm, smooth, smooth, full-colour primer thickness of 0.5~1.5mm surface; Due to the role of anion, the product has a lasting release of anion and highly effective antibacterial properties, with a unique air purification function.

德国 COSO 独家采用国际领先的负离子 5 层钢琴烤漆（亦称钻石漆）；硬度更强，达 2H 以上，亮度质感更好，耐黄面极好，成本高昂；德国 COSO 钻石漆工序复杂，从表面喷漆到高温烘漆经 8 道工序，最终形成坚固、平整洁滑、色度饱满的底漆厚度 0.5~1.5mm 的表面；由于负离子的作用，保证了产品具有持久释放负离子和高效抗菌特性，具有独一无二的空气净化功能

PURE COPPER STABILIZER BLADE ARE SOLID AND DURABLE

纯铜支撑脚 稳固耐久

The use of high-quality pure copper material edge bathroom cabinet support feet, moistureproof durable, stronger bearing force.

采用优质纯铜材质包边浴室柜支撑脚，防潮耐用，承重力更强

BATHROOM CABINET TECHNOLOGY

浴室柜技术

BLUM HARDWARE HINGE
优质百隆五金门铰

European import buffering system and self-suction rebound slide track, smooth push and pull.

欧洲进口缓冲系统及自吸反弹式滑轨·推拉顺畅

LED INDUCTIVE SWITCH
LED 感应开关

Simply sweep your hand outside the sensor hole and you can control the LED light switch.

只需将手在感应孔外轻松扫动·便可控制 LED 灯开关

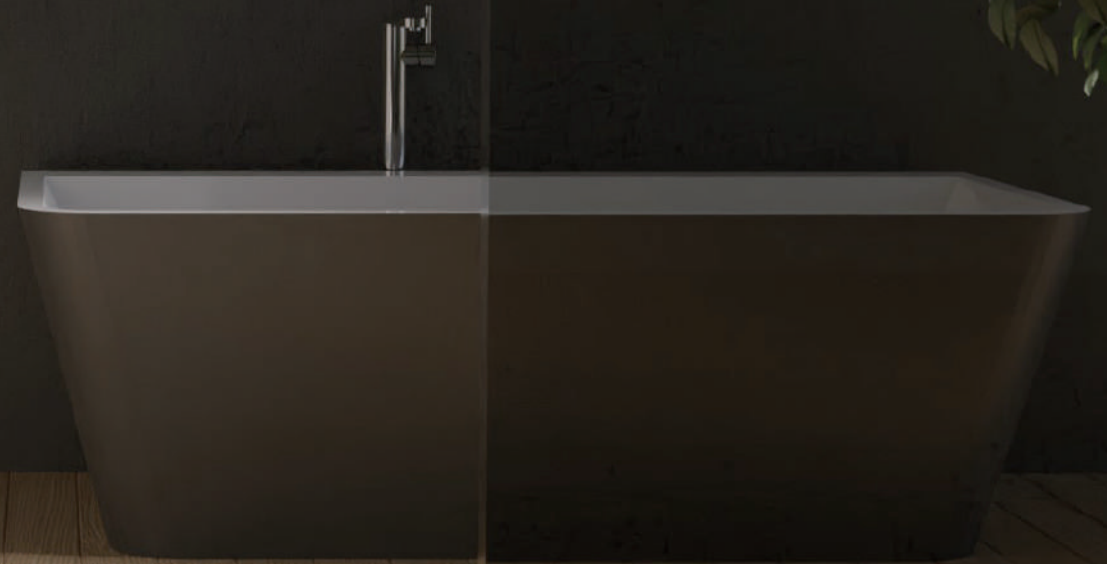

COPPER FREE MIRROR PLANE
无铜镜面

The anti-oxidation performance is more than 2 times higher than that of ordinary silver mirror, which can effectively prevent the mirror from corroding and blackening. Choose lead-free primer, which is more environmentally friendly and safe to use at home

抗氧化性能比普通银镜高出 2 倍以上·有效避免镜面腐蚀发黑·选用无铅底漆·居家使用更环保安全

TOILET

Performance and luxurious personality are presented equally

TOILET TECHNOLOGY

座便器技术

Intelligent Toilet
智能座便器

20 COSO INTELLIGENT TOILETTE
TECHNOLOGIEN
智能座便器技术

				
臀部清洗	女士专用清洗	移动清洗	冷热清洗	立体按摩
				
柔光照明	喷口清洗	水压调节	智能清洗按键	智能妇洗按键
				
座圈加热	暖风烘干	遥控冲水	停电冲水	环保节电

GERMAN IC INTELLIGENT CHIP SYSTEM 德国 IC 智能芯片系统

Precise control of seat temperature, wind temperature and water temperature

The mainboard is fully injected with glue, mildew proof, waterproof, frost proof and leakage proof

Safe and comfortable

精准控制座温 风温 水温等功能

主板全面注胶，防霉，防水，防冻，防漏电

安全舒适无忧

TOILET TECHNOLOGY

座便器技术

DECOMPRESSION FILTER SYSTEM

净水减压过滤系统

Adopting German technology, multi-layer filtration can effectively remove the bacteria and dirt in tap water, to achieve water purification effect and keep clean and hygienic. Tap water through the filtration system, the formation of good water pressure, prolong the service life of the machine.

采用德国工艺·多层过滤有效去除自来水中的细菌污物·达到净水效果·保持干净卫生；自来水通过过滤系统·冲水形成良好的水压·延长机器使用寿命

SUPER HYDROCONE TECHNOLOGY

超漩虹吸式技术

The latest three-dimensional super whirlpool siphon flushing technology, first by the edge of the toilet flushing hole spray a small amount of water to flush dirt, then inhaled air for pneumatic assisted flushing, not only better water saving but also clean.

最新立体超漩式虹吸冲水技术·先由座便器边缘冲水孔喷射少量水冲污物·再吸入空气进行气压助力冲污·不仅更好的节水同时也冲洗得干干净净

DEODORISATION SYSTEM

除臭系统

High-tech catalyst automatic deodorizer device, is the odour after the catalyst filter, no matter when to keep the toilet air fresh and odourless.

高科技触媒自动除臭装置·是臭气经过触媒过滤·无论何时都保持卫生间的空气清新无异味

MICROWAVE INDUCTION TECHNOLOGY

微波感应技术

Through the advanced microwave induction technology, accurate identification of the target, automatic open and close cover induction more accurate, at any time ahead of you one step.

通过先进的微波感应技术·精确识别目标·自动开闭盖感应更加精确·随时先您一步

AIR BUBBLE CLEANING

气泡清洁

Foaming type strong washing, air inhalation and injection of water mix, water pressure change alternately, effectively promote hip blood circulation.

发泡式强力冲洗·将空气吸入并与注入的水流混合·水压强弱交替变化冲洗·有效促进臀部血液循环

WARM DRY

暖风烘干

Intelligent warm air drying, make your hip fresh and healthy, at the same time start automatic flushing, features: clean hip fresher, maintain a beautiful mood after the toilet.

智能暖风烘干·使您的臀部清爽健康·同时启动自动冲水·特点：清洗后臀部更加清爽·保持如厕后美丽心情

TOILET TECHNOLOGY

座便器技术

THERMOSTATIC HEATING 恒温加热

Built-in safety heating electric ring, with five adjustable temperature options, according to your personal preferences to adjust the most suitable temperature, simple and convenient, cleaner than ordinary seat ring pad.

内置安全加热电圈·设有五档可调温度选项·依据您个人的喜好调节最适合的温度·简单方便·较普通座圈棉垫更清洁卫生

INSTANT HEATER 瞬间加热器

Korean 3S ceramic instant heating technology, ceramic hydroelectricity completely separated mode, more power-saving, more safety.

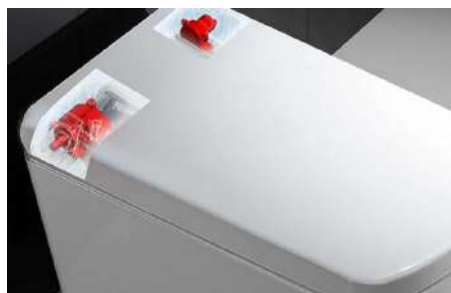

采用韩国 3S 陶瓷瞬间加热技术·陶瓷水电完全分离模式·更省电·更安全

CONSTANT TEMPERATURE OF CERAMIC + ALLOY ABS HEAT 恒温加陶瓷 + 合金 ABS 热

The outer shell of the ceramic liner is made of ABS alloy, which is more lightweight and can be easily handled by one person. The structure is strong and durable, which can fully bear the weight of one ton.

陶瓷内胆·外壳采用了合金 ABS 材料更加轻便·一个人可轻松搬运·结构坚固耐用·完全能承受一吨的重量

BILATERAL DAMPER SYSTEM 双侧阻尼系统

Adopt the double side damping system, better control the cover smooth turn up, buffer fall, effectively reduce the wear of the motor, increase the service life, achieve a stable working state.

采用双侧阻尼系统·更好地控制盖子平稳翻起·缓冲下落·有效减少电机的磨损·增加使用寿命·达到一个稳定的工作状态

TOILET TECHNOLOGY

座便器技术

INTEGRATED MOLDING

套嵌一体成型

The outer group of the base of the toilet is separated and embedded with the siphon drainage pipe body, forming in one body, moisture-proof, anti-freeze crack, clean, convenient, beautiful and durable.

座便器底座外群与虹吸排水管道体分离嵌装·一体成型·防潮、防冻裂·干净便利、美观耐用

DOUBLE LEVELS OF ENVIRONMENTAL PROTECTION AND WATER SAVING

双档环保节水

3L/4.8L ultra water-saving toilet seat with the drain valve enlarged to 3 inches. With a flushing speed of up to 2.0-2.8l /s, higher than the national standard of 1.7L/s for 2-inch drainage valves, this design allows water to flow quickly into waterways, resulting in a strong jet siphon effect.

3L/4.8L 超节水型座便器的排水阀加大到 3 寸·令冲水速度高达 2.0-2.8L/s·高于 2 寸排水阀 1.7L/s 的国家标准·这样的设计能让水快速流满水路·从而产生强劲的喷射虹吸效果

NANO SELF-CLEANING GLAZE

纳米自洁釉面

The super-smooth surface and ion isolation double protection, to remove the space containing dirt. Eliminate dirt adhesion and the possibility of bacterial survival, cleaning more convenient, durable anti-fouling and anti-bacteria.

超平滑表面与离子隔离的双重保护·摒除容纳污垢的空隙·彻底杜绝污垢黏附和细菌生存的可能·清洁更方便·持久抗污抗菌

360° FLUSHING SYSTEM

360°超漩冲刷

The latest double hole wash brush seat, double hole at the same time flushing, instant generation of powerful double spiral vortex water, vortex type water 360° cover quiet scour without edge inner wall, turbulent scour force, overturn the previous way of flushing.

最新推出双孔洗刷座便·双孔同时冲水·瞬间产生强大双螺旋旋涡水流·旋涡式水流 360°覆盖静音冲刷无棱内壁·汹涌的冲刷力·颠覆以往冲水方式

SLOW DOWN THE COVER PLATE

静音缓降盖板

Supporting high - texture seat cover plate, convenient disassembly, slow down function. The use of urea-formaldehyde material makes the surface gloss high, not easy to fade, high hardness, not easy to scratch.

配套高质感座便盖板·便捷拆装·缓降功能·其脲醛材质的运用令表面光泽度高·不易褪色·硬度高·不易划损

FIVE-STAR OF HIGH QUALITY WATER FITTINGS

五星优质水件

With its innovative structural design, unparalleled product quality, and excellent system performance, each design has undergone 250,000 limit tests and no dripping water leakage.

配套高规格的水件系统·其革新的结构设计·无与伦比的产品质量·卓越的系统性能·每一款设计都经过 25 万次极限测试·冲水无滴漏

TOILET TECHNOLOGY

座便器技术

STRONG INSTANT DRAIN PIPE 瞬间强排管道

All toilet seats adopt the optimized glaze technology inside the pipeline, the maximum diameter of the sewage pipe is up to 60mm, increase the instant strong drainage, strong drainage strength, one-time cleaning.

座便器均采用优化管道内施釉技术·排污管直径最大达60mm·加大瞬间强排·强劲排污力度·一次冲净

SINGGLE HOLE OF INDEPENDENT POLLUTION DISCHARGE 单孔独立排污

More close to the human nature of the design, even solid pipe wall, no internal cracks. Put an end to the use of the process of microleakage, clean and sanitary.

更贴近人性的设计·管壁均匀结实·内部无缝隙·杜绝使用过程中出现的微渗漏·洁净卫生

WASHBASIN

My private space only contains my pleasure enjoy grace everyday
only for myself the moon of being along so beautiful

WASHBASIN TECHNOLOGY

盥洗盆技术

KARST 岩熔盆

1. The Karst washbasin is not easy to crack, and it is dust-free, high cleanliness, and also it is easy to clean.
2. At the same time, the Karst washbasin is resistant to aging, corrosion, radioactive elements, and recyclable.
3. It is a green and resource-saving product.

1. 岩熔盆是不容易开裂·而且不起尘·洁净度高·方便清洗；
2. 耐老化、耐腐蚀、无放射性元素、可回收；
3. 是属于绿色环保型及节约资源型产品

CERAMIC 陶瓷盆

Low water absorption and durable;
The glaze is flawless and bright ;
Large area, wide and comfortable experience ;
Humanized design of overflow hole · prevents water seepage

吸水率低·经久耐用；
釉面剔透无暇·亮度佳；
大脸盘面积·体验开阔舒适；
人性化溢水孔设计·防止渗水

BATHTUB

Find the medium status between luxury and simplicity ,
such a status is different from banality and simplicity Instead it
is closely related to practicality coziness endearment and elegance.

BATHTUB TECHNOLOGY

浴缸技术

Multi-layer mixed material for long insulation
Easy to clean, one-piece shape, smooth and beautiful
Strong bearing, multi-layer reinforcement can bear 200KG
Comfortable feel · transparent and smooth, waterproof, anti-fouling and anti-bacteria

多层混合材质·长久保温
易清洁·一体成型·光洁美观
承装强·多层加固可承重 200KG
手感好·剔透光滑·防水防污防细菌

URINAL

Each product is loaded with more humane care. All the starting points of our products are made for the comfort of life.

URINAL TECHNOLOGY

小便器技术

COSO urinal' s self-cleaning glaze make glaze is high smooth, with nanometer material coating, forming a surface detest layer, so that the surface of the product has self-cleaning function, do not hang water, do not hang dirt, do not scale, health performance improved.

The multiple choices of the infrared sensing mode of urinals, the standard design of the intelligent controller flushing program and the personalized design can make it widely used in the transformation of all kinds of toilets and meet the needs of different users to a large extent, to realize the automation, intelligence, personalized means of flushing, so can guarantee the sanitary environment of the toilet.

德国 COSO 小便器的自洁釉使釉面平滑度高，用纳米材料涂层，形成表面憎水层，使产品表面有自洁功能，不挂水、不挂污、不结垢，卫生性能提高。

小便器红外感应方式的多重选择，智能控制器冲洗程序标准型编制配以个性化的设计，能使之广泛用于各类厕所的改造和大限度地满足不同用户的需求，实现了冲厕手段的自动化、智能化、个性化，从而能保证厕所的卫生环境。

SHOWER ROOM

COSO has considered the design aesthetics, practical science, experiential psychology and many other aspects from every detail of the product, creating the greatest convenience and comfort for you

SHOWER ROOM TECHNOLOGY

淋浴房技术

HARDWARE ACCESSORIES TECHNOLOGY

五金配件技术

COSO hardware accessories adopt the best 304 stainless steel in the industry, high hardness, strong bearing capacity, good corrosion resistance, beautiful high-grade, easy to save. It adopts advanced processing equipment and is made by multi-process polishing to achieve the mirror effect with strong metal texture.

德国 COSO 五金配件采用行业内最好的 304 不锈钢，硬度高，承载力强，耐腐蚀性能好，同时美观高档，易于保存。采用先进的加工设备，通过多道工序抛制而成，达到镜面效果，具有很强的金属质感。

PULLET TECHNOLOGY

滑轮技术

COSO shower room from beginning to end pay attention to the quality of the pulley, COSO shower room series at the cost of the use of stainless steel fully enclosed bearing structure, through 100 thousand times of continuity, anti-fatigue push-pull test, thus can calculate the use of the pulley Gauss shower room can reach more than 10 years

德国 COSO 淋浴房自始至终都注重滑轮的质量，COSO 淋浴房的系列不惜成本采用不锈钢全封闭式轴承结构，经过 10 万次连续性、抗疲劳推拉测试，由此可推算 COSO 淋浴房所采用的滑轮使用寿命可达 10 年以上。

SELLOTAPE TECHNOLOGY

胶条技术

COSO's sealant is using imported EVA material, soft texture, strong ageing resistance, not easy to change colour, easy to clean. Weather resistance, anti-ageing and other properties are far higher than the industry standard. It is resistant to ultraviolet light, resistant to cold without cracking, flexible and long service life.

德国 COSO 的密封胶条采用进口 EVA 材料，质地较软，耐老化性强、不易变色、易清洁。耐候性、抗老化等性能都远远高于行业的标准。具有抗紫外光、耐寒不龟裂、柔韧性强、使用寿命长等特点。

TOUGHENED GLASS

德国 COSO 钢化玻璃

The original glass sheet produced by Nanbo Group has been tempered by 695 ° constant temperature, reaching the automobile level protection standard, and the safety factor far exceeds the national requirements.

使用南玻集团生产的玻璃原片，经 695° 的恒温钢化，达到汽车级的防护标准，安全系数远超国家要求。

MATERIAL TECHNOLOGY

材质技术

COSO 's aluminium adopts aviation-grade high-quality profile, aluminium is strictly required to use the hardness of about 13~14 degrees of high-quality aluminium, purity up to 95% or so, high price, moderate toughness but not brittle, not easy to deformation.

德国 COSO 铝材采用航空级优质型材，铝材严格要求采用硬度为 13~14 度左右的优质铝材，纯度高达 95% 左右，价位高，硬韧适中而不脆、不易变形。

采用航空级优质型材

GLASS TECHNOLOGY

玻璃技术

The tempered glass used by COSO is obtained by heating the high quality float glass to near the softening point and then cooling it quickly and evenly. Thereby enhancing the glass's own wind pressure resistance, cold and heat resistance and so on.

德国 COSO 采用的钢化玻璃是将优质的浮法玻璃加热到接近软化点时，再进行快速均匀的冷却而得到。从而增强了玻璃自身抗风压性、寒暑性等。
